ABOUT ME

I'm a 28-year-old Brazilian Full Stack Developer with 5 years of experience.

My main tech stack includes: Typescript, JavaScript, React, NextJS, NodeJS, NestJS, Docker, MongoDB, AWS, and GCP.

I'm currently based in the United States, where I live with my wife and our young daughter. In my free time, I enjoy working out and playing video games.

EDUCATION

Bachelor's Degree in Computer Engineering
Universidade Tecnológica Federal do Paraná (UTFPR)
2015 – July 2021

EXPERIENCE

Senior Full Stack Developer

Grupo Boticário

January 2023 – June 2025

Led the design and development of two new products using microservices and microfrontend architecture. Besides coding, I actively participated in product refinement sessions and contributed to application design, showcasing strong communication and collaboration skills.

- ✓ React / Microfrontends
- ✓ Node / NestJS
- ✓ MongoDB / PostgreSQL
- ✓ AWS / Docker / CI/CD
- ✓ Git / Postman

Mid-Level Full Stack Developer

Axion Digital

October 2021 – December 2022

As the tech lead of a team, I developed and maintained digital products with thousands of users. My responsibilities included architecture planning, development, and mentoring the team.

- ✓ React / React Native / PWA / NextJS / Web5
- ✓ Node / NestJS / Parse Server
- ✓ MongoDB / Firebase
- ✓ AWS / GCP / Docker / CI/CD
- ✓ Git / Postman / Strapi / Grafana

Junior Full Stack Developer

Axion Digital

April 2021 – September 2021

Responsible for both front-end and back-end development of hybrid and native applications.

- ✓ React / React Native / PWA
- ✓ Node / Parse Server
- ✓ MongoDB / Firebase
- ✓ AWS ELB / DigitalOcean
- ✓ Git / Postman / Strapi

Full Stack Intern

Axion Digital

September 2020 – March 2021

Software Quality Assurance Intern

Cielo

January 2019 – December 2019

Worked in the QA department supporting automation and test monitoring for multiple squads. Also helped implement mock systems for product validation.

- ✓ Java / Ruby / JavaScript
- ✓ Cucumber / BDD
- ✓ Wiremock / Postman
- ✓ Docker / ELK / Linux

ACADEMIC PROJECTS

Database Course Monitor

UTFPR – CP

March 2018 – December 2018

Monitored a core subject at the university with high failure rates. I supported students during office hours, clarified doubts, and created documentation and guides for using database tools.

Scientific Research in Experimental Physics

UTFPR – CP

March 2017 – March 2018

Worked on improving lab equipment by creating a touch interface for automating data collection in physics experiments. The tool captured and visualized real-time data and exported it to Excel.

ADDITIONAL INFORMATION

Languages

- Portuguese – Native
- English – Intermediate

Work Authorization

- Authorized to work in the United States.
- All visa requirements and compliance processes are handled by the company employing my spouse.
